### Year 2 - Scientists at Work

Year 2 are looking at Materials in Science this term. As part of this topic year 2 carried out an investigation to see which materials can change shape by being squashed, squeezed, bent, stretched or twisted. Here are photos of the scientists hard at work.

Next week is **Walk to School Week** with the 2020 theme 'Health and Wellbeing'. According to the organisers, 'Living Streets', strong hearts, healthy bones and increased muscle strength are all well-documented outcomes of walking, but the benefits for the mind are just as powerful, including an increased sense of calm and time to connect with friends, family and the natural world.

Cavendish pupils (and grown-ups!) will be challenged to walk, scoot or 'park and stride' to school every day next week. Each class will have a wallchart for the children to log their journeys and each child will be given an individual activity diary and reward stickers to reinforce the benefits of walking.
